

Il social learning con **edmodo**

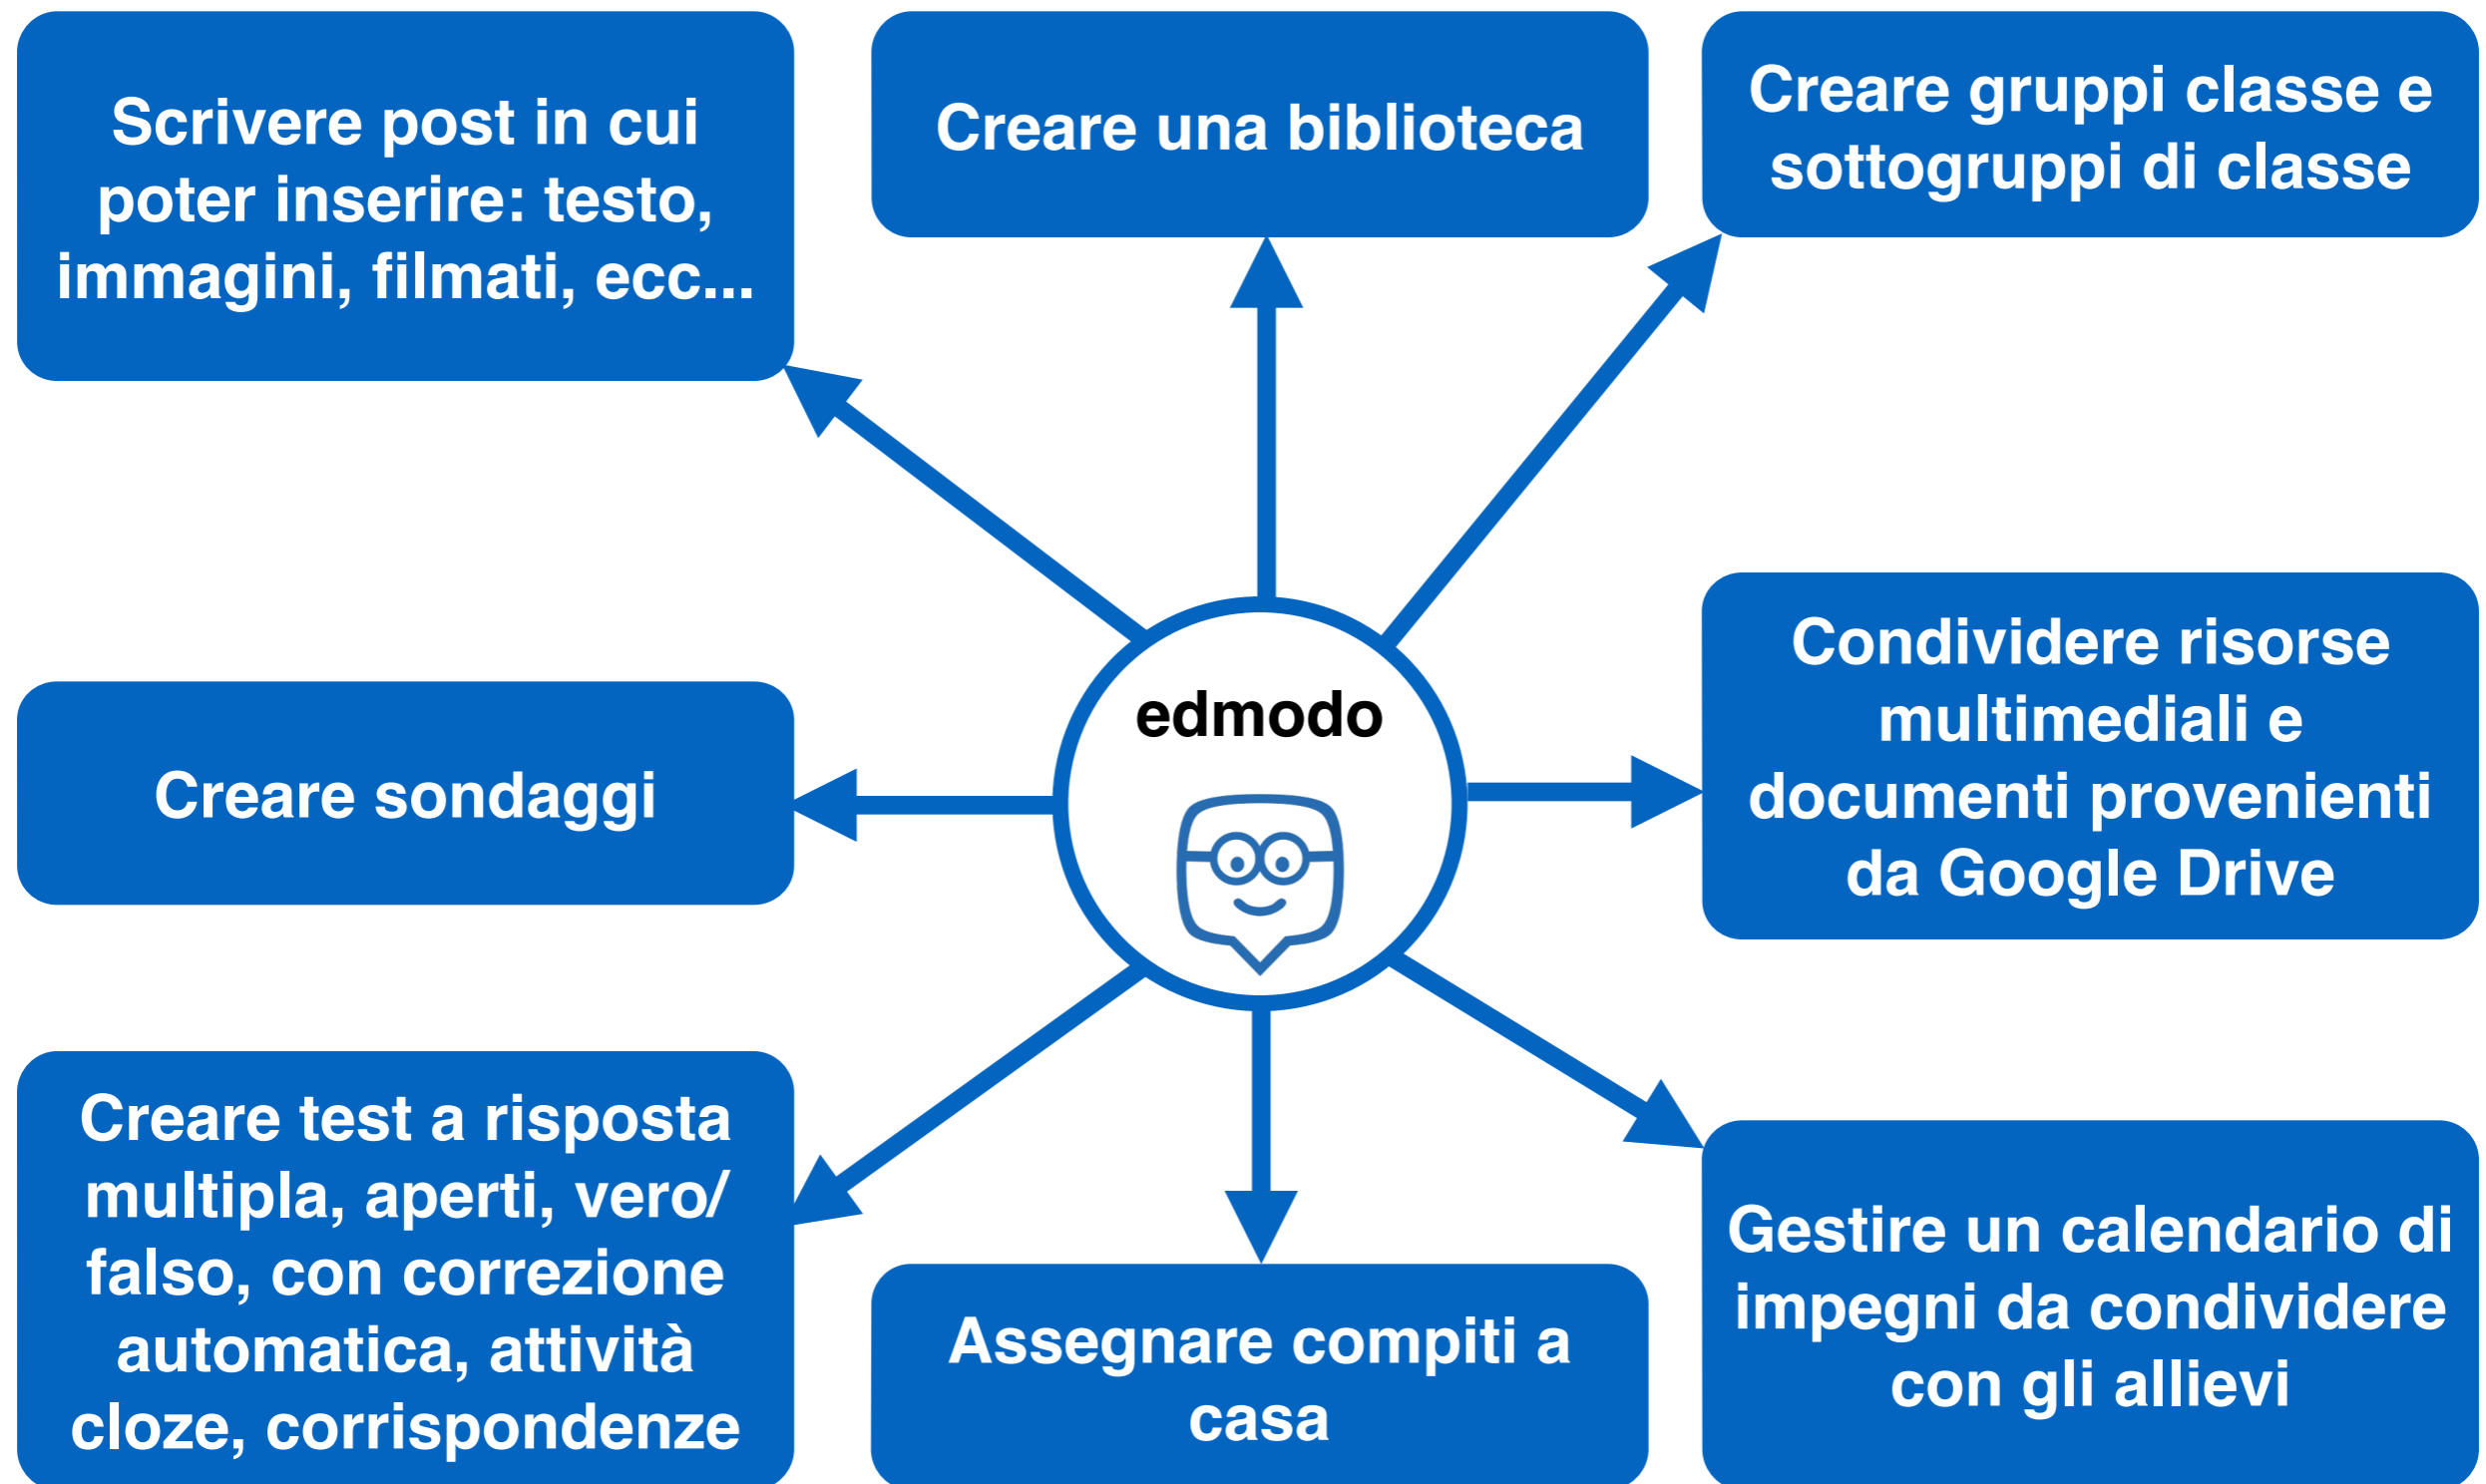

gestire ed utilizzare una classe virtuale

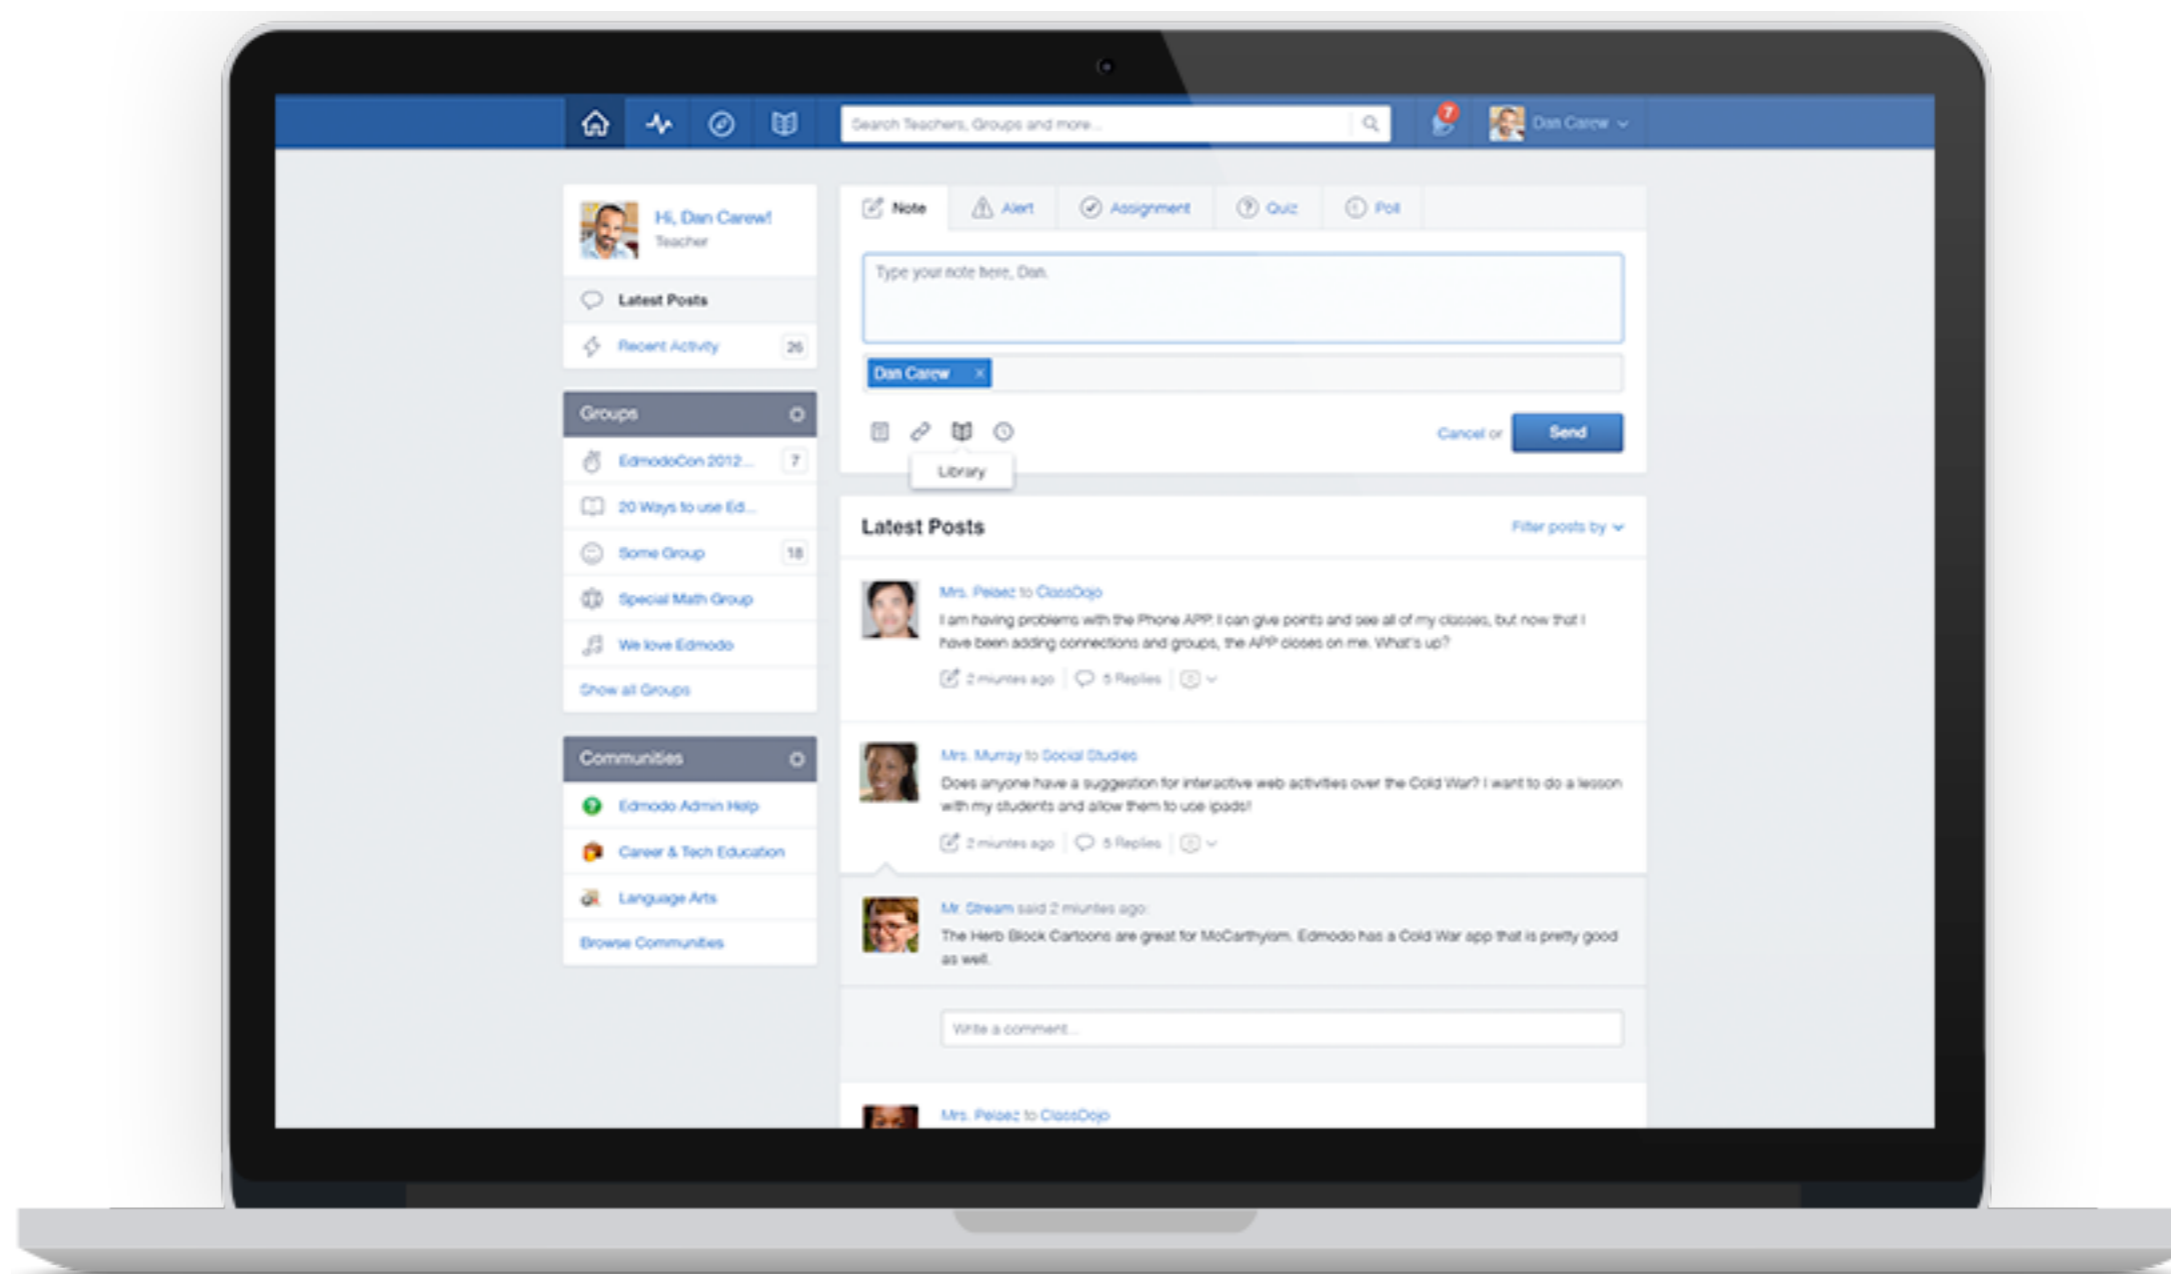

Prof. Michele Maffucci

Cos'è **edmodo**

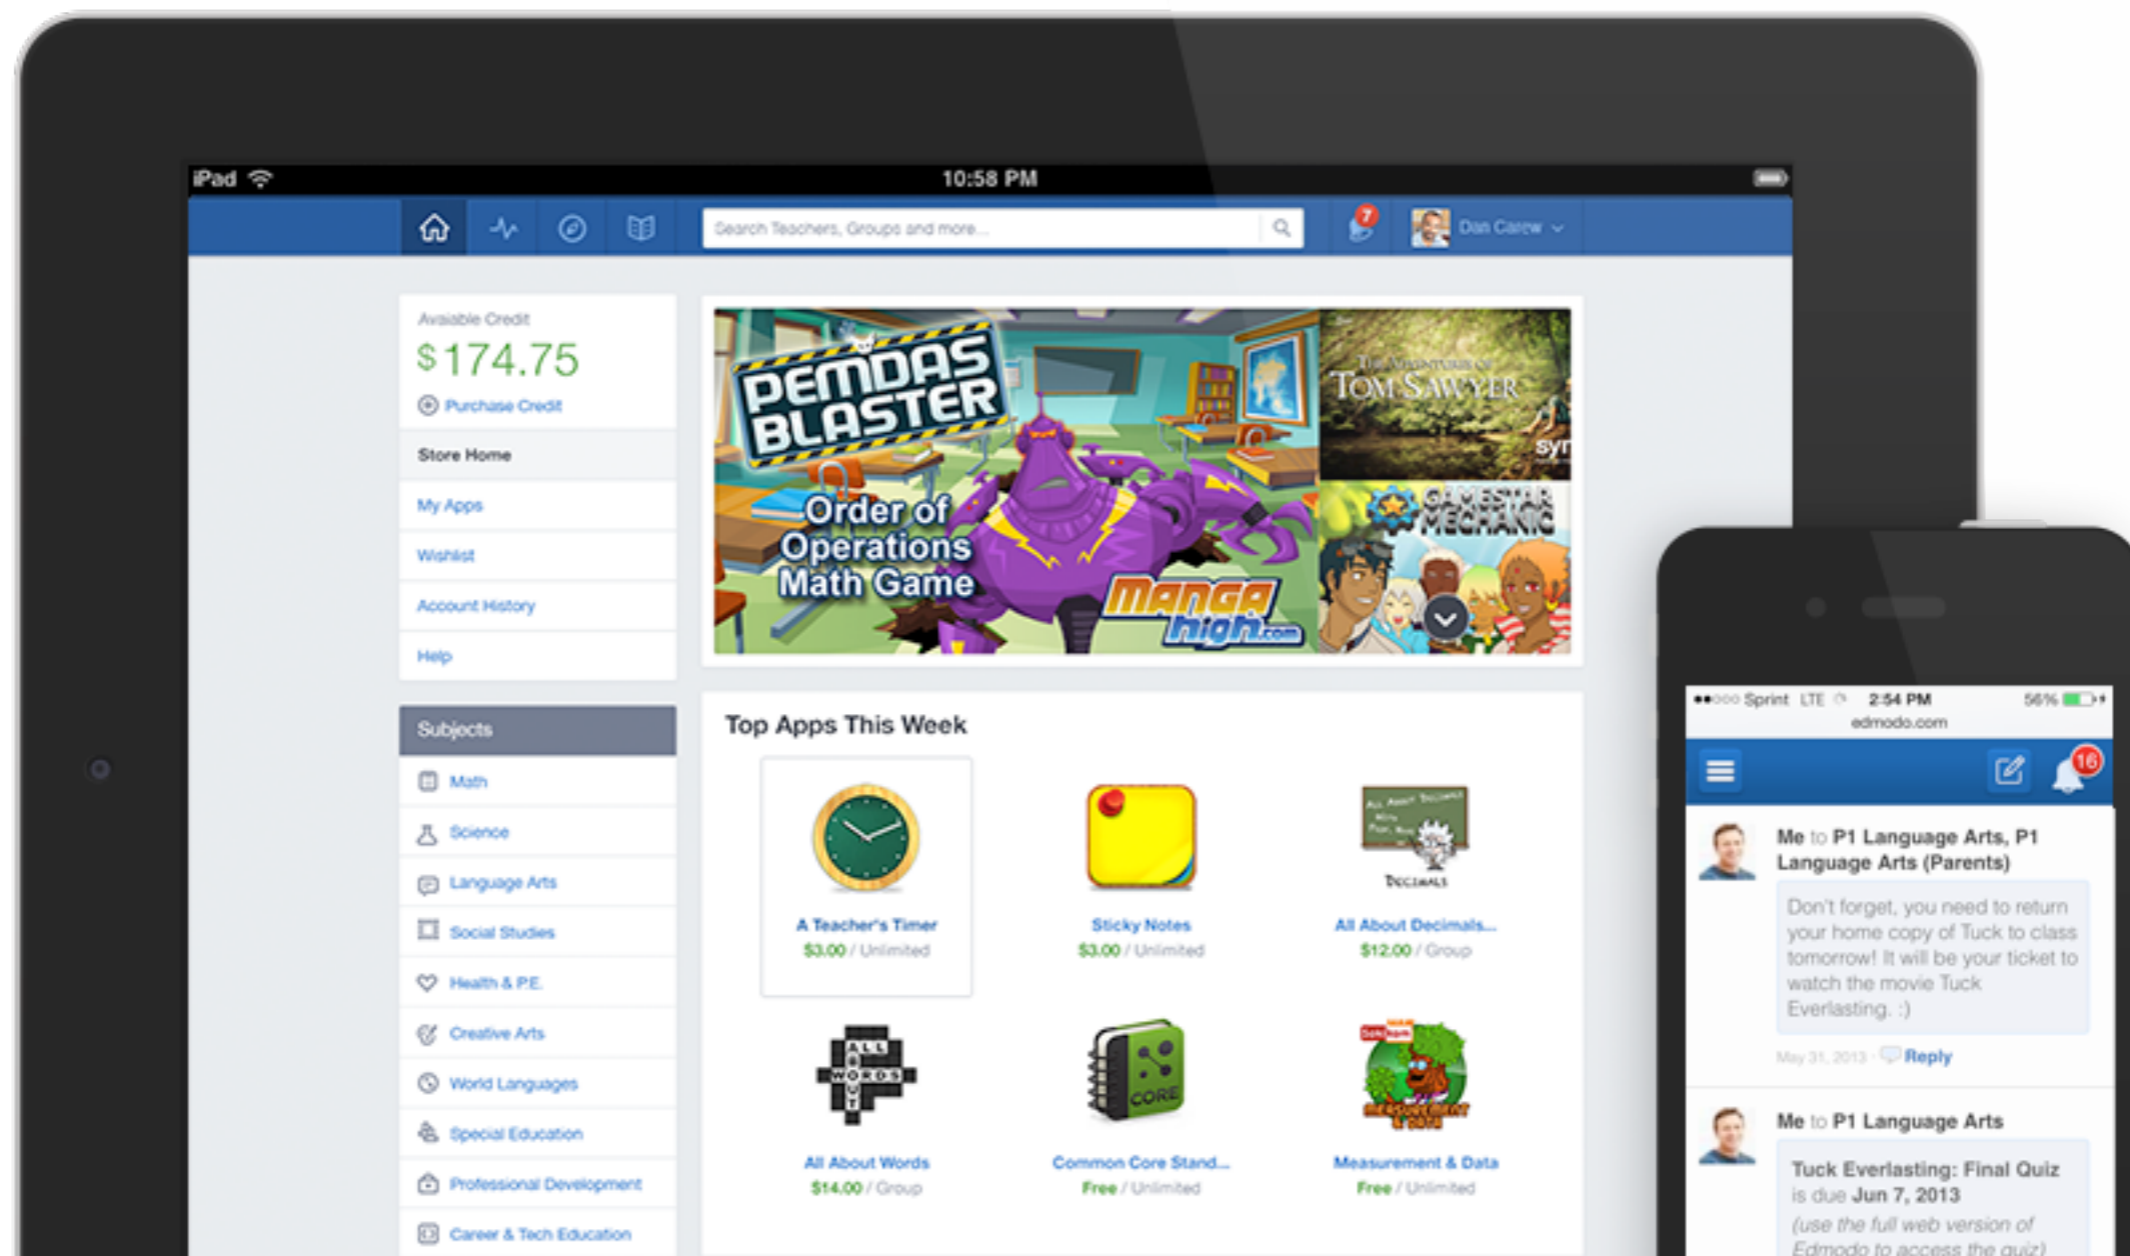

- È un social network adatto per la creazione di comunità di apprendimento;
- permette di lavorare e mantenere contatti tra studenti, insegnanti e genitori;
- è possibile creare contesti didattici molto simili a quelli che ci possono essere in presenza in classe;
- è un sistema in cui il docente ha il pieno controllo sulla classe ed è in grado di gestire conversazioni, compiti, esercizi, calendario;
- è un sistema protetto, chiuso alla classe e non consente l'accesso a persone non invitate dal docente;
- è un sistema privo di pubblicità;
- ricorda sistemi di social network ben conosciuti dai ragazzi, come facebook, twitter, ecc...
- è GRATUITO.

Cosa si può fare

edmodo può essere usato da computer

edmodo può essere usato da tablet e smartphone (iOS - Android)

The image shows two views of the Edmodo platform. The top view is a desktop browser interface for an 'Astronomy Club' activity. The teacher has posted a task: 'Let's make our own solar system.' with a due date of July 23, 2010. The task description asks students to bring items from home to create a solar system. Below the post, there are several student comments from July 20, 2010, such as 'Anne B. - can we make things at home?' and 'Me - absolutely! be creative!!!'. The bottom view is a mobile app interface showing a 'Gradebook / Astronomy Club' with a list of students and their scores:

Student Name	Score
George Washington	0/0
Jane Addams	115/125
Ben Franklin	0/0
Matthew Gaines	5/5
Johnny Kennedy	100/100
Mary Lincoln	100/100
Jimmy Madison	0/0

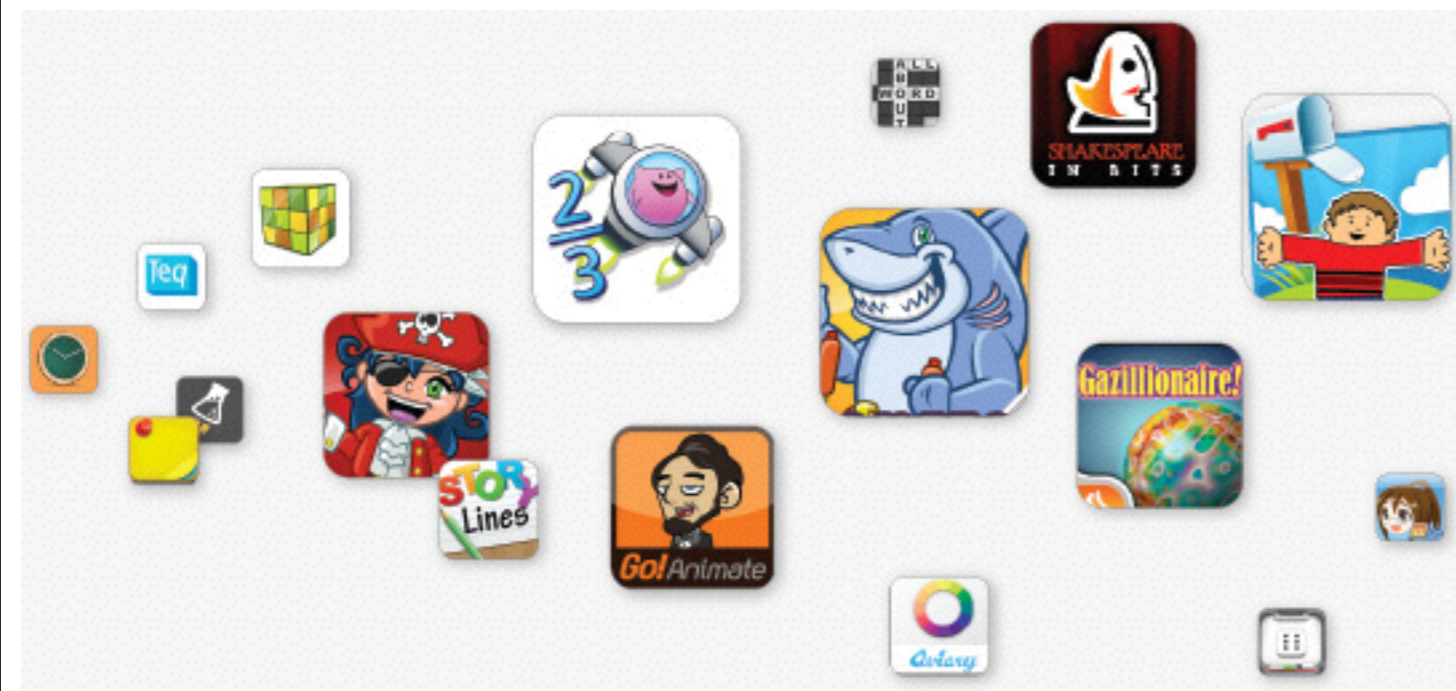

Le funzionalità e la grafica di **Edmodo** permettono di coinvolgere lo studente e farlo operare in un ambiente familiare. Gli insegnanti possono continuare on-line le discussioni iniziate in classe in presenza, possono assegnare sondaggi agli allievi per verificare la comprensione degli argomenti spiegati e aggiudicare badge per singoli studenti in base alle prestazioni o il comportamento.

In **Edmodo**, gli insegnanti sono al centro di una potente rete che li collega a studenti, amministratori, genitori ed editori. Questa rete offre la possibilità di costruire una formazione di alta qualità.

Edmodo rende semplice il controllo dei progressi degli studenti. Tutti i voti e i badge assegnati vengono archiviati e sono facilmente accessibili. Gli insegnanti possono avere sempre sotto controllo la situazione della classe attraverso l'analisi dei quiz, compiti e discussioni, ciò permette di attuare strategie per migliorare la comprensione degli argomenti e ridurre la confusione e la frustrazione dello studente nel comprendere gli argomenti spiegati.

E' possibile integrare in **Edmodo** applicazioni didattiche (gratuite o a pagamento) che aiutano gli insegnanti a migliorare l'azione didattica.
